

Examination Process & Examiners for ISO 17024 Certification

EXAMINATION PROCESS

Comprehensive Coverage: All competences must be tested, ensuring thoroughness.

Methods: Utilise multiple choice tests, practical assignments, and 360-degree feedback for validity and reliability.

Objective: Employers trust that all competences are verified.

SELECTION OF EXAMINERS

Criteria: Examiners must have defined knowledge and skills.

Impartiality: No conflicts of interest; thorough checks are essential.

Training: Offer briefings or training for examiners to maintain quality.

ACTION STEPS

Ensure: Every competence is covered in exams.

Verify: Examiners' impartiality and qualification.

Implement: Examiner training for transparency and quality.
